

## Downloading Courses (GolfBuddy / GolfBuddy Plus)

1. Visit [www.golfbuddyusa.com](http://www.golfbuddyusa.com) and obtain a username and password by clicking the “join us” button at the top of the page and following the instructions. If you have already created an account and have an ID and password already, move on to the next step.

2. Once you have obtained your account ID and password, return to [www.golfbuddyusa.com](http://www.golfbuddyusa.com) and look for a peach or orange colored box in the bottom right of the screen. It should say “You have to install Active X Control and USB Driver before downloading”.

3. If you are running Windows XP or below, go ahead and click “Active X Control” and click run when the security window pops up. Then follow the instructions and complete the download and install. If you are running Windows Vista, you will need to run the Active X Control manually. Click on the third blue box down on the right which says “Firmware Upgrade.” Once on that page, click on “Install and Active X Control manually for Windows Vista users (beta version)” and then follow the instructions.

4. Return to the home page of [www.golfbuddyusa.com](http://www.golfbuddyusa.com) and go back to the peach box. Now click on USB Driver, choosing whether you have a GolfBuddy (original) or GolfBuddy Plus. Go ahead and run when the window pops up and follow the instructions for download and install.

5. Plug in your GolfBuddy/GolfBuddy Plus unit and turn it on. Next, click on the blue “Firmware upgrade” button and scroll down to the bottom, where you should find the Upgrade your GolfBuddy manually button. Click this and follow the instructions to upgrade your firmware.

6. Click the blue button to the right that says “Search Courses”. You can also click the “Download Courses” button while on the homepage to do the same thing. You can use the box to the top right to search in different countries or states for your desired golf course(s). Once you have found it/them, check the box next to them and click “download now”.

7. To view that status of your GolfBuddy and the courses loaded on it, move your mouse over the “My GolfBuddy” tab at the top of the web page and click on “My Device”.
