

Firmware Upgrade (GolfBuddy Plus only)

1. For Window XP users (bottom left of your Windows has a “Start” menu):

There should be a peach or orange colored box which states “You have to install Active X and USB driver before downloading”

Click on the “USB driver (Golf Buddy Plus).” This will ask you to Run, Save or Cancel. Select “Run”.

Run this install shield wizard.

2. For Window Vista Users (bottom left of your Windows has a windows logo):

There should be 4 blue boxes on the right of the homepage. Click on the box titled : “Firmware Upgrade”.

3. Look for No.7 which states “Install an ActiveX control manually for Window Vista users (beta version)and click.

Download

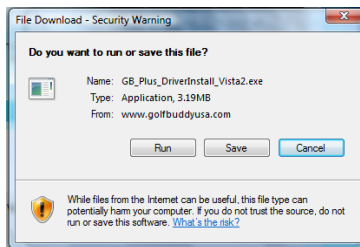

No.	Title	Date
8	GolfBuddy Course Manager for GolfBuddy Pro and Tour	2008-05-23
7	install an ActiveX Control manually for Window Vista users (beta version)	2007-09-29

4. Click on: [GB+DriverInstall_Vista2.exe](#) link.

149	Install an ActiveX Control manually for Window Vista users (beta version)	2007-09-29
-----	---	------------

[GB Plus DriverInstall Vista2.exe](#)

5. A security warning will then ask you if you would like to Run, Save, or Cancel. Select “Run”. Run the install shield wizard. Once it has completely finished, return to the firmware upgrade list.

6. Go all the way down to the bottom under no. 1. There is a link titled Upgrade your GolfBuddy firmware manually, click on this link.

1	Upgrade your GolfBuddy/GolfBuddy Plus/GolfBuddy Pro manually	2008-04-23
---	--	------------

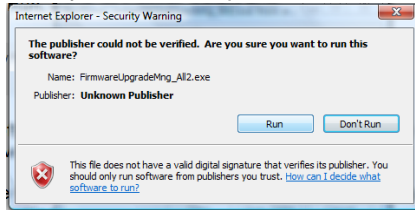

7. This should bring up a FirmwareUpgradeMng_All2.exe link, click on this link. Your computer will now ask you to Run, Save, or Cancel. Select Run.

Download

4	Upgrade your GolfBuddy/GolfBuddy Plus/GolfBuddy Pro manually	2008-04-23
---	--	------------

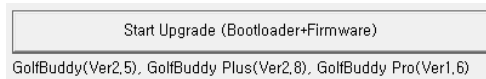

[FirmwareUpgradeMng_All2.exe](#)

8. While the firmware update software downloads, turn on the GolfBuddy and have it on the Searching Sat... menu. This will simply come up when you power on your unit. Connect the USB cable to the GolfBuddy then to an empty USB port on the computer. Once you have completed downloading the upgrade, run the software.

9. The GolfBuddy Firmware Upgrade menu should come up. Make sure both the Bootloader Upgrade and the Firmware Upgrade boxes are both checked.

Once checked, click on the big Start Upgrade, and then click Ok. Wait until the Complete to Upgrade!! box pops up.

Click Ok and this will complete the upgrading process.
